Integrity is our foundation

We conduct our business in an open and forthright manner in strict compliance with applicable laws, rules and regulations leading to the correct perception of being an ethical organization. Our team of competent individuals possesses high integrity and credibility, enabling the delivery of technology intensive solutions thereby contributing significantly to the success of our customers.

Respect for people is our biggest strength

The collective talent pool of our employees comprises of our most important asset. Therefore, we provide an organization and an operating environment that attracts, nurtures, stimulates, and rewards employee professionalism and creativity, providing a safe workplace and an opportunity for hands on accomplishment, a criterion highly regarded for promotion and growth.

Experience is our treasure

Ajaykumar B Bubna (MSEE, USA) is a veteran leader in the field of Instrumentation and Electronic Security. Starting his career way back in the early 80's he has been a pioneer of sorts. He is a well respected figure in the industry and has been leading Ascent from the front for over 28 years. He brings a wealth of experience, foresight and leadership values which is part of every individual working in Ascent. His professional experience spans over two decades with some of the most renowned names in the industry like IOCL, BPCL, HPCL, GAIL, MDL, MAFFFL, CONCOR, CPCL, IPPL. He enjoys his leisurely hours spending time in doing research in the field of Instrumentation.

We have garnered an edge over our competitors due to the rich experience which our employees and our organization have achieved since the inception of our company. Today the company is uniquely poised to grow by leaps and bounds in the growing economy due to its richly experienced employees.

OUR COMPANY

Headquartered in Mumbai, the business capital of India, Ascent Networks Private Limited, is a premier Engineering, Procurement and Construction (EPC) company having varied capabilities and vast experience to execute large and complex projects nationwide on Lump-Sum Turnkey (LSTK) basis. We cater to a wide spectrum of business sectors that mainly includes Oil & Gas, Hospitality, Infrastructure and various Enterprise based domain segments from design conceptualization to commissioning with over 30 years of experience in multi discipline technology and engineering services. We offer cost optimized, world class engineering solutions, flawless planning and immaculate execution of complex projects.

Since inception, Ascent Networks has had a clear vision of leveraging the enormous power of information technology for improving the quality of life of people rather than just automating client infrastructures. We believe in a world where, in today's competitive market, enterprises must have an uncomplicated and efficient solution to maintain high productivity and save time and money on the delivery front. The biggest challenge for large-scale organizations is not only to connect various businesses but also to streamline operations and build a single solution platform for different locations, functions and departments. Therefore, we offer turnkey EPC & System Integration (SI) services to build and link multiple technology systems with the aim to help you drive your business faster, make it more flexible and efficient.

We ensure that our clients get complete peace of mind on the technology front, as our expert EPC & SI team works round-the-clock to deliver the best and most cost-effective solution architecture for your business.

OUR SI SERVICES

IP Surveillance

Fire Detection & Suppression

Gas Detection

Access & Entrance Control

WLAN & IOT

FTTH / FTTB / FTTx

Business Telephony with Collaboration & Mobility

Enterprise Cabling & Network integration

Power Regulation & Conditioning

Home & Building Automation

Computer Imaging & Software

Facility Management & Maintenance Services

Manpower Services for Surveillance Monitoring

Consultancy Services

PRODUCT PORTFOLIO

IP Cameras, Flame proof Cameras, Encoders,
Enterprise grade NVR Servers, Video Management
& Analytics Softwares, Command & Control Centre Softwares.

Addressable Fire Alarm Control Panels, Advanced Smoke
Sensing Devices, Aspiration Sensing Detection all with Voice Alarm,
Fire Suppression systems with Clean Agent and CO2.

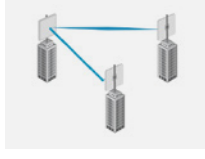

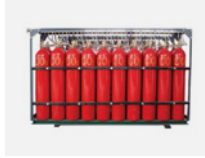

Fixed/Open Path/Portable Gas
Detectors for Hazardous Gases
with Controllers & Transmitters.

Industrial Integrated Fire and Gas Systems with
Hazard Monitoring & Control with SIL2 / SIL3 /
NFPA-72 / EN-54 certified ratings.

Secured Identity Proofing Systems
for Access Control, Asset Tracking,
Identity Management & Authentication.

Pedestrian & Vehicle Barriers for Human Access,
Parking & Terminal Control, Perimeter Protection,
Boarding & Immigration.

Controller based Wave 2 Wireless LAN
with Analytics & Business Intelligence for
Campus & Wide Area Networking.

Adaptable, Scalable Business Telephony
through seamless integration with on-site
Mobility solutions like DECT / VoWLAN.

Design, Installation & Operation
of best-in- class Copper &
Fiber Cabling Infrastructure.

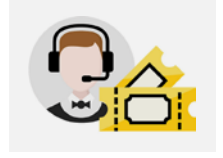

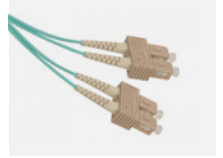

Surge Protection & Power Conditioning
Systems with Filters, Back-up &
Harmonic conditioning.

Business Printing & Plotting Devices.

Hardware Support & On-site Maintenance Services tagged to a
state-of- the-art service module CRM with call log-in, automated
engineer allocation, reporting, call tracking and resolution.

Live Video Monitoring & Surveillance Manpower
Services with highly trained personnel to monitor
& prevent incidents before they occur.

Technology Consulting, relates to services aimed at
helping clients which include Business Process Automation,
Systems Implementation and Enterprise Security.

OUR EXPERTISE

Telephone system | Alcatel lucent enterprise / Network switching
- industrial grades / Wireless / Voice loggors / Voice mail
/ Call center Solutions / Computer telephony integrations

Networking | LAN / Fiber optic cabling / FFTH - with integrated services such as Voice, Wireless Internet, IP Doorphone, Multiple DTH IP TV, Fire Alarm, Gas Leak Detection on Single Fiber / FTTx / FTTB

Switching | L2 / L3 Switches
/ Chassis based
/ Fiber switches

Wireless | Controller Based Wifi
/ Radio Wave Wifi
/ Standalone AP

CCTV | IP Surveillance / Storage
/ NVR / Analytics / Integrated with Audio
/ SCADA / Networking / Video Wall

Server & storage |
Laptop/ Desktop

Fire Alarm | FDP / Networking / Fiber
/ Copper / Integration with PA
/ Video Images Detection (Fire-USF)

Gas Detection | Gas Detection (Oil & Gas)
/ Gas Detection Controller
/ Flame Detection

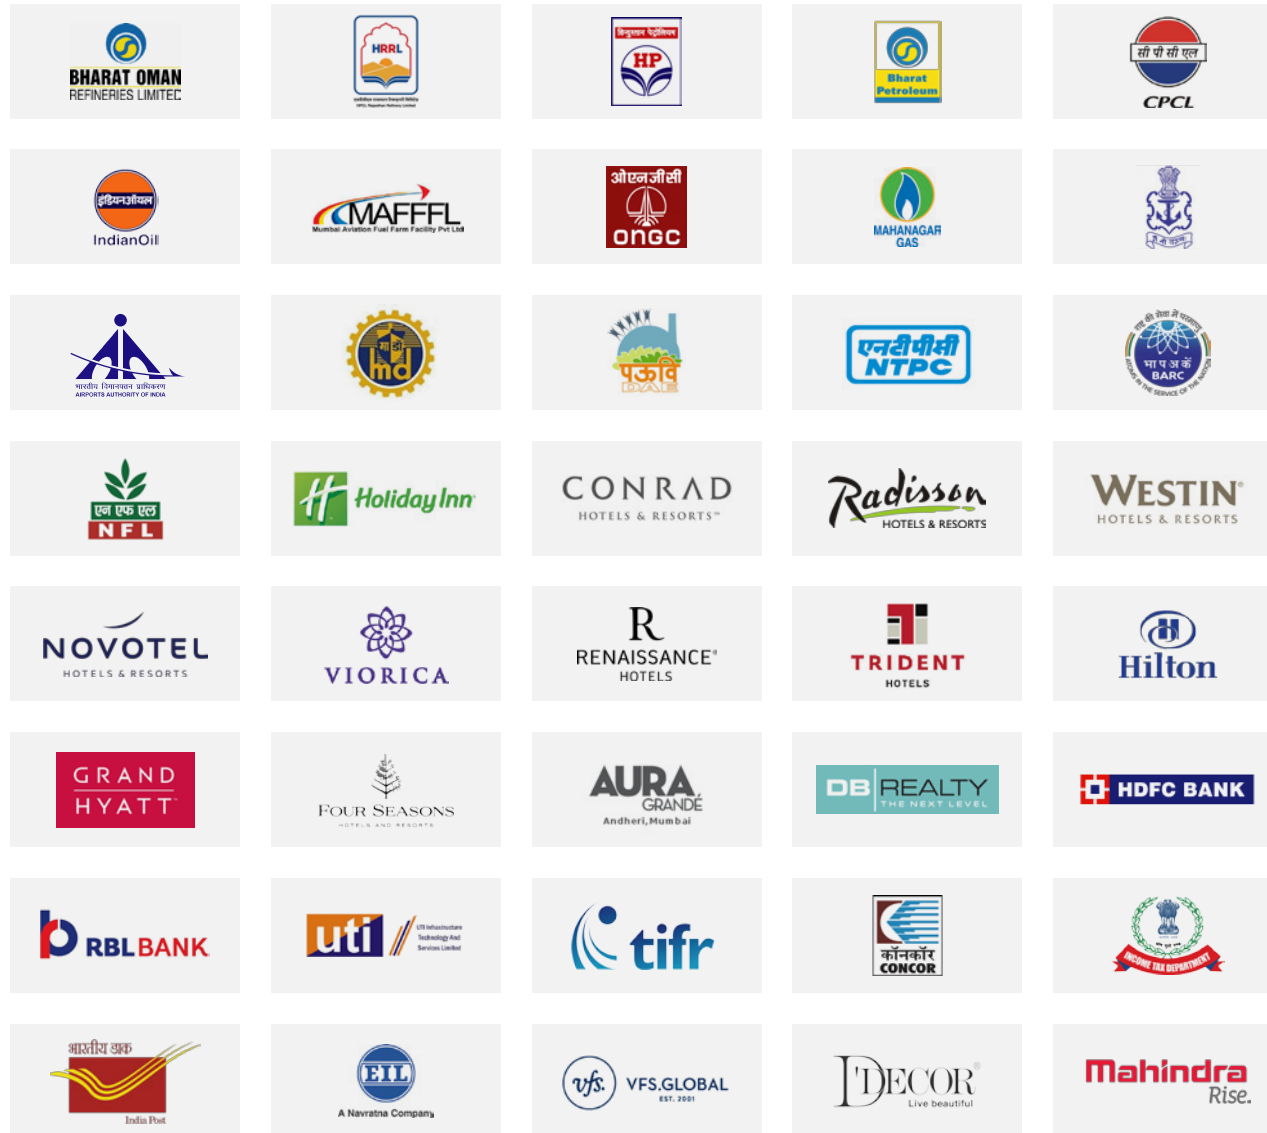

Integration with SCADA
Integration of Gas Detection Systems with SCADA systems

PLC Panel
SIL3 Compliant PLC Panels

Access Control (TYCO/Honeywell) | Single or Multiple Door
Controllers / Glass Door Sensors / Proximity Sensors / Magnetic
door lock / Wireless Door Controllers / Boom barriers / Flap barriers
/ Attendance software

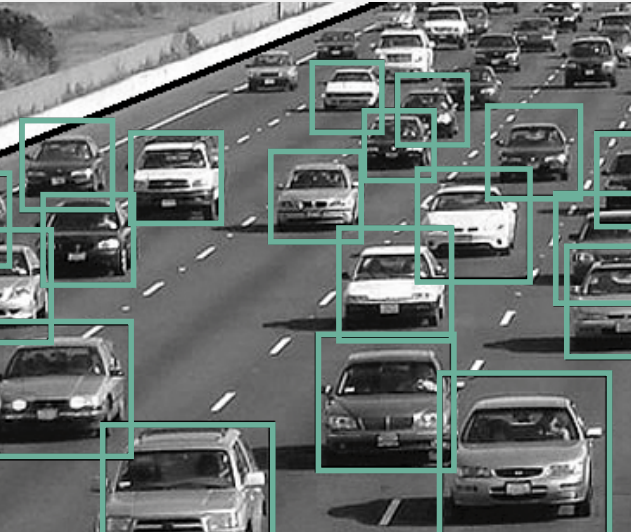

OUR CUSTOMERS

We ensure that our clients get complete peace of mind on the technology front, as our expert team works round-the-clock to deliver the best and most cost-effective solutions for your business.
